## Country Analytical Reports

Siraj Mahmudlu, UNICEF Regional Office for CEE/CIS  
October, 2016

# Why CARs?

- Metadata
- Identify commonalities and differences across countries in measurement of core indicators
- Track changes in policies, systems and definitions
- Identify best practices and improve
  - Intra-country dialogue
  - horizontal learning across the region
- Work on solutions for common problems

# Recent CAR topics

- **2006**
  - a) System, in support of children without parental care
  - b) Functioning of Juvenile Justice System
- **2007/08** – Family-based alternative care
- **2009** - Young People
- **2010** – Gender issues 10 years after the “women in transition report”
- **2011** – Assessment of feasibility of selected data and data collection methods
- **2015** – Disaggregation of data on children by ethnicity
- **2016** – Children’s access to justice

# Recent CAR topics

- **2012**
  - Feedback on the new template
  - Data gaps and potential priorities to strengthen data availability at country level
  - Additional information on children in infant homes
- **2013** - Methods and tools for measurement of disability
- **2014** - Alternative care provision for children
- **2015** – Disaggregation of data on children by ethnicity
- **2016** – Children’s access to justice

# 2014 CAR on Alternative Care Provision for Children

## Process

- Focus on definitions and data systems
- 21 country reports – quality varied
- Joint assessment by national stakeholders
- Follow up and triangulation of information and data

## Outcome

- Summary report
- Promising practices and shared challenges identified (panels today)
- Country profiles on children in alternative care

Thank you!
