

1. POPULATION

1.1 Population at the beginning of the year by gender and selected age groups, 1989-2012

- 1.1.1 Total population on 1 January (in 1,000s)
- 1.1.2 Total male population on 1 January
- 1.1.3 Total female population on 1 January
- 1.1.4 Population aged 0-17 years on 1 January (in 1,000s)
- 1.1.5 Population aged 0-4 years, on 1 January (in 1,000s)
- 1.1.6 Population aged 0-14 years on 1 January (in 1,000s)
- 1.1.7 Population aged 14-17 years on 1 January (in 1,000s)
- 1.1.8 Population aged 18-59 years on 1 January (in 1,000s)
- 1.1.9 Population aged 60 and over on 1 January (in 1,000s)

1.2 Average population by gender and selected age groups, 1989-2011

- 1.2.1 Average total population (in 1,000s)
- 1.2.2 Average total population aged 0-17 years
- 1.2.3 Average total population aged 0-14 years
- 1.2.4 Average total population aged 15-17 years
- 1.2.5 Average total population aged 15-19 years
- 1.2.6 Average total population aged 18-19 years
- 1.2.7 Average total male population
- 1.2.8 Average male population aged 0-17 years
- 1.2.9 Average male population aged 15-19 years
- 1.2.10 Average total female population
- 1.2.11 Average female population aged 0-17 years
- 1.2.12 Average female population aged 15-19 years

1.3 Population on 1 January: Structure indicators, 1989-2012

- 1.3.1 Proportion of population aged 0-4 years (% of total population)
- 1.3.2 Proportion of population aged 0-14 years (% of total population)
- 1.3.3 Proportion of population aged 14-17 years (% of total population)
- 1.3.4 Proportion of population aged 0-17 years (% of total population)
- 1.3.5 Proportion of population aged 18-59 years (% of total population)
- 1.3.6 Proportion of population aged 60 years and over (% of total population)
- 1.3.7 Age dependency ratio (population aged 0-14 and 60 and over to population aged 15-59, %)
- 1.3.8 Child dependency ratio (population aged 0-14 to population 15-59 years, %)
- 1.3.9 Old-age dependency ratio (population 60 and over to population 15-59 years, %)

1.4 Components of population change, 1989-2011

- 1.4.1 Crude rate of natural change of population (live births minus deaths per 1,000 average population)
- 1.4.2 Number of immigrants (in 1,000s)
- 1.4.3 Number of emigrants (in 1,000s)
- 1.4.4 Net external migration (in 1,000s)

1.4.5 Crude rate of net migration (per 100,000 average population)

2. MARRIAGE AND DIVORCE

2.1 Marriages, 1989-2011

2.1.1 Number of marriages

2.1.2 Crude marriage rate (per 1,000 average population)

2.1.3 Age-specific marriage rate (marriages per 1,000 average population aged 15-44)

2.1.4 Average age of women at first marriage (years)

2.1.5 Average age of men at first marriage (years)

2.2 Divorces, 1989-2011

2.2.1 Number of divorces

2.2.2 Crude divorce rate (per 1,000 average population)

2.2.3 General divorce rate (per 100 marriages)

2.2.4 Number of children affected by parental divorce

2.2.5 Rate of children affected by parental divorce (per 1,000 average population aged 0-17)

3. FERTILITY

3.1 Births, 1989-2011

3.1.1 Number of live births

3.1.2 Number of total births

3.1.4 Number of live births to women under age 20

3.1.4 Number of live births to women under age 20

3.1.5 Number of live births to married women

3.1.6 Number of live births to married women under age 20

3.1.7 Number of live births to mothers with primary or incomplete primary education

3.1.8 Number of live births to mothers with lower secondary (basic) education

3.1.9 Number of live births to mothers with secondary education

3.1.10 Number of live births to mothers with tertiary education

3.1.11 Number of live births to mothers with unknown education

3.2 Fertility indicators, 1989-2011

3.2.1 Number of live births to women under age 20

3.2.2 Total fertility rate (number of children per woman aged 15-49)

3.2.3 Mean age of women at the birth of first child (years)

3.2.4 Proportion of births to mothers under age 20 (as % of total live births)

3.2.5 Proportion of live births outside marriage (as % of total live births)

3.2.6 Proportion of live births outside marriage among mothers under age 20 (as % of total live births to mothers under age 20)

3.2.7 Age specific fertility rate among younger than 20 year olds (live births per 1,000 women aged 15-19)

3.2.8 Age specific fertility rate among 20-24 year olds (live births per 1,000 women aged 20-24)

3.2.9 Age specific fertility rate among 25-29 year olds (live births per 1,000 women aged 25-29)

3.2.10 Age specific fertility rate among 30-34 year olds (live births per 1,000 women aged 30-34)

3.2.11 Age-specific fertility rate among 35-49 year olds (live births per 1,000 women aged 35-49)

3.3 Live births by weight, 1989-2011

3.3.1 Number of live births to women under age 20

3.3.2 Proportion of live births under 2,500 grams (births under 2,500 grams as % of total live births)

3.3.3 Proportion of low-weight births among mothers under age 20 (births under 2,500 grams as % of total live births to mothers under 20)

3.4 Abortions, 1989-2011

3.1.4 Number of live births to women under age 20

3.4.2 Abortion rate (legally induced abortions per 100 live births)

3.4.3 Abortion rate per population (legally induced abortions per 1,000 women aged 15-49)

3.4.4 Number of legally induced abortions among women under age 20

3.4.5 Abortion rate among women under age 20 (legally induced abortions among women under age 20 per 100 live births to women of the same age)

3.4.6 Abortion rate per population among women under age 20 (legally induced abortions among women under age 20 per 1,000 women aged 15-19)

4. MORTALITY

4.1 General mortality indicators, 1989-2011

4.1.1 Crude death rate (per 1,000 average population)

4.1.2 Male life expectancy at birth (years)

4.1.3 Female life expectancy at birth (years)

4.1.4 Infant mortality rate (per 1,000 live births)

4.1.5 Infant mortality rate (per 1,000 live births), estimates developed by the Inter-agency Group for Child Mortality Estimation

4.1.6 Under-5 mortality rate (per 1,000 live births)

4.1.7 Under-5 mortality rate (per 1,000 live births), estimates developed by the Inter-agency Group for Child Mortality Estimation

4.1.8 Number of maternal deaths

4.1.9 Maternal mortality ratio (per 100,000 live births)

4.2 Mortality rates by gender and age group, 1989-2011

4.2.1 Crude death rate (per 1,000 average population)

4.2.2 Mortality rate among 1-4 year olds - Males (deaths per 100,000 average relevant population)

4.2.3 Mortality rate among 1-4 year olds - Females (deaths per 100,000 average relevant population)

4.2.4 Mortality rate among 5-14 year olds - Total (deaths per 100,000 average relevant population)

4.2.5 Mortality rate among 5-14 year olds - Males (deaths per 100,000 average relevant population)

4.2.6 Mortality rate among 5-14 year olds - Females (deaths per 100,000 average relevant population)

4.2.7 Mortality rate among 15-19 year olds - Total (deaths per 100,000 average relevant population)

population)

4.2.8 Mortality rate among 15-19 year olds - Males (deaths per 100,000 average relevant population)

4.2.9 Mortality rate among 15-19 year olds - Females (deaths per 100,000 average relevant population)

4.2.10 Mortality rate among 20-24 year olds - Total (deaths per 100,000 average relevant population)

4.2.11 Mortality rate among 20-24 year olds - Males (deaths per 100,000 average relevant population)

4.2.12 Mortality rate among 20-24 year olds - Females (deaths per 100,000 average relevant population)

4.2.13 Mortality rate among 25-39 year olds - Total (deaths per 100,000 average relevant population)

4.2.14 Mortality rate among 25-39 year olds - Males (deaths per 100,000 average relevant population)

4.2.15 Mortality rate among 25-39 year olds - Females (deaths per 100,000 average relevant population)

4.2.16 Mortality rate among 40-59 year olds - Total (deaths per 100,000 average relevant population)

4.2.17 Mortality rate among 40-59 year olds - Males (deaths per 100,000 average relevant population)

4.2.18 Mortality rate among 40-59 year olds - Females (deaths per 100,000 average relevant population)

4.2.19 Mortality rate among 60 years and over - Total (deaths per 100,000 average relevant population)

4.2.20 Mortality rate among 60 years and over - Males (deaths per 100,000 average relevant population)

4.2.21 Mortality rate among 60 years and over - Females (deaths per 100,000 average relevant population)

4.3 Causes of death: number of deaths by selected causes, gender and age group, 1989/2000-2011

4.3.1 Crude death rate (per 1,000 average population)

4.3.2 Number of deaths due to diseases of the respiratory system among under 1 year older

4.3.3 Number of deaths due to congenital malformations among under 1 year olds

4.3.4 Number of deaths due to diseases of the perinatal period among under 1 year olds

4.3.5 Number of deaths due to external causes among under 1 year olds - Total

4.3.6 Number of deaths due to external causes among under 1 year olds - Males

4.3.7 Number of deaths due to external causes among under 1 year olds - Females

4.3.8 Number of deaths due to infectious and parasitic diseases among 0-4 year olds

4.3.9 Number of deaths due to diseases of the respiratory system among 0-4 year olds

4.3.10 Number of deaths due to congenital malformations among 0-4 year olds

4.3.11 Number of deaths due to diseases of the perinatal period among 0-4 year olds

4.3.12 Number of deaths due to external causes among 0-4 year olds - Total

4.3.13 Number of deaths due to external causes among 0-4 year olds - Males

4.3.14 Number of deaths due to external causes among 0-4 year olds - Females

4.3.15 Number of deaths due to external causes among 0-17 year olds - Total

4.3.16 Number of deaths due to external causes among 0-17 year olds - Males

- 4.3.17 Number of deaths due to external causes among 0-17 year olds - Females
- 4.3.18 Number of deaths due to external causes among 5-9 year olds - Total
- 4.3.19 Number of deaths due to external causes among 5-9 year olds - Males
- 4.3.20 Number of deaths due to external causes among 5-9 year olds - Females
- 4.3.21 Number of deaths due to external causes among 10-14 year olds - Total
- 4.3.22 Number of deaths due to external causes among 10-14 year olds - Males
- 4.3.23 Number of deaths due to external causes among 10-14 year olds - Females
- 4.3.24 Number of deaths due to external causes among 15-17 year olds - Total
- 4.3.25 Number of deaths due to external causes among 15-17 year olds - Males
- 4.3.26 Number of deaths due to external causes among 15-17 year olds - Females
- 4.3.27 Number of deaths due to external causes among 15-19 year olds - Total
- 4.3.28 Number of deaths due to external causes among 15-19 year olds - Males
- 4.3.29 Number of deaths due to external causes among 15-19 year olds - Females

4.4 Causes of death: mortality rates by selected causes, gender and age group, 1989/2000-2011

- 4.4.1 Crude death rate (per 1,000 average population)
- 4.4.2 Mortality rate due to respiratory diseases among 1-4 year olds (deaths per 100,000 average relevant population)
- 4.4.3 Mortality rate due to congenital malformations among 1-4 year olds (deaths per 100,000 average relevant population)
- 4.4.4 Mortality rate due to external causes of death among 1-4 year olds (deaths per 100,000 average relevant population)
- 4.4.5 Mortality rate due to external causes of death among 0-17 year olds - Total (deaths per 100,000 average relevant population)
- 4.4.6 Mortality rate due to external causes of death among 0-17 year olds - Males (deaths per 100,000 average relevant population)
- 4.4.7 Mortality rate due to external causes of death among 0-17 year olds - Females (deaths per 100,000 average relevant population)
- 4.4.8 Mortality rate due to external causes of death among 15-19 year olds - Total (deaths per 100,000 average relevant population)
- 4.4.9 Mortality rate due to external causes of death among 15-19 year olds - Males (deaths per 100,000 average relevant population)
- 4.4.10 Mortality rate due to external causes of death among 15-19 year olds - Females (deaths per 100,000 average relevant population)
- 4.4.11 Suicide death rate among 10-14 year olds - Males (deaths per 100,000 average relevant population)
- 4.4.12 Suicide death rate among 10-14 year olds - Females (deaths per 100,000 average relevant population)
- 4.4.13 Suicide death rate among 15-17 year olds - Males (deaths per 100,000 average relevant population)
- 4.4.14 Suicide death rate among 15-17 year olds - Females (deaths per 100,000 average relevant population)
- 4.4.15 Suicide death rate among 15-19 year olds - Total (deaths per 100,000 average relevant population)
- 4.4.16 Suicide death rate among 15-19 year olds - Males (deaths per 100,000 average relevant population)
- 4.4.17 Suicide death rate among 15-19 year olds - Females (deaths per 100,000 average relevant population)

5. HEALTH

5.1 Vaccination, 1989-2011

- 5.1.1 Percentage of children aged under 2 vaccinated against diphtheria, pertussis and tetanus
- 5.1.2 Percentage of children aged under 2 vaccinated against poliomyelitis
- 5.1.3 Percentage of children aged under 2 vaccinated against measles
- 5.1.4 Percentage of children aged under 1 vaccinated against tuberculosis

5.2 Morbidity - new cases during the year, 1989/2000-2011

- 5.2.1 Percentage of children aged under 2 vaccinated against diphtheria, pertussis and tetanus
- 5.2.2 Incidence of pertussis (new cases per 100,000 average population)
- 5.2.3 Incidence of tetanus (new cases per 100,000 average population)
- 5.2.4 Incidence of measles (new cases per 100,000 average population)
- 5.2.5 Incidence of rubella (new cases per 100,000 average population)
- 5.2.6 Incidence of tuberculosis (new cases per 100,000 average population)
- 5.2.7 Incidence of tuberculosis among 0-14 year olds (new cases per 100,000 average relevant population)
- 5.2.8 Incidence of tuberculosis among 15-17 year olds (new cases per 100,000 average relevant population)
- 5.2.9 Incidence of tuberculosis among 0-17 year olds (new cases per 100,000 average relevant population)
- 5.2.10 Incidence of tuberculosis among 18-19 year olds (new cases per 100,000 average relevant population)
- 5.2.11 Incidence of syphilis and gonorrhoea (new cases per 100,000 average population)
- 5.2.12 Incidence of syphilis and gonorrhoea among 15-19 year olds - Total (new cases per 100,000 average relevant population)
- 5.2.13 Incidence of syphilis and gonorrhoea among 15-19 year olds - Males (new cases per 100,000 average relevant population)
- 5.2.14 Incidence of syphilis and gonorrhoea among 15-19 year olds - Females (new cases per 100,000 average relevant population)
- 5.2.15 Number of new HIV infections (registered cases during the year)

5.3 Morbidity - registered at the end of the year, 1989/2000-2011

- 5.3.1 Percentage of children aged under 2 vaccinated against diphtheria, pertussis and tetanus
- 5.3.2 Number of registered with tuberculosis among 0-14 year olds, at the end of the year
- 5.3.3 Number of registered with tuberculosis among 15-17 year olds, at the end of the year
- 5.3.4 Number of registered with tuberculosis among 18-19 year olds, at the end of the year
- 5.3.5 Total number of people registered with alcoholism and alcoholic psychosis, at the end of the year
- 5.3.6 Number of registered with alcoholism and alcoholic psychosis among 15-17 year olds, at the end of the year
- 5.3.7 Total number of registered with dependency upon narcotic and psychoactive substances, at the end of the year
- 5.3.8 Number of registered with dependency upon narcotic and psychoactive substances among 15-17 year olds, 2000-2011, at the end of the year

5.4 Disability, 1989/2000-2011

- 5.4.1 Percentage of children aged under 2 vaccinated against diphtheria, pertussis and tetanus
- 5.4.2 Number of newly registered as disabled among 0-15 year olds, during the year
- 5.4.3 Number of newly registered as disabled among 0-17 year olds, during the year
- 5.4.4 Total number of registered disabled persons, at the end of the year
- 5.4.5 Number of registered disabled among 0-15 year olds, at the end of the year
- 5.4.6 Number of registered disabled among 0-17 year olds, at the end of the year

6. EDUCATION

6.1 Early childhood care; Pre-primary education (ISCED 0), 2000/2001 - 2010/2011

- 6.1.1 Children in early childhood care (gross enrolment ratio, % of children aged 0-2)
- 6.1.2 Enrolment in pre-primary (ISCED 0) education (net enrolment ratio, % of population aged 3-6)
- 6.1.3 Enrolment in private institutions of pre-primary (ISCED 0) education (% of all children enrolled in respective level of education)
- 6.1.4 Percentage of females in pre-primary (ISCED 0) education (% of all students enrolled in the respective level of education)

6.2 Primary (ISCED 1) and lower secondary (ISCED 2) education, 2000/2001 - 2010/2011

- 6.2.1 Primary education (ISCED 1) enrolments (absolute number)
- 6.2.2 Primary education (ISCED 1) gross enrolment ratio (% of relevant population)
- 6.2.3 Enrolment in private schools of primary (ISCED 1) education (% of all students enrolled in primary education)
- 6.2.4 Percentage of females in primary (ISCED 1) education (% of all students enrolled in the respective level of education)
- 6.2.5 Percentage of repeaters in primary (ISCED 1) education (repeaters per 100 students)
- 6.2.6 Percentage of females among repeaters in primary (ISCED 1) education (in %, girls per 100 repeaters)
- 6.2.7 Pupil-teacher ratio in primary (ISCED1) education (the average number of pupils per teacher)
- 6.2.8 Basic education (ISCED 1 and 2) enrolments (absolute number)
- 6.2.9 Basic education (ISCED 1 and 2) gross enrolment ratio (% of relevant population)
- 6.2.10 Age-specific enrolment ratio of children 7-14 (children enrolled in any level of education as % of population aged 7-14)
- 6.2.11 Enrolment in private schools of lower secondary (ISCED 2) education (% of all students enrolled in the respective level of education)
- 6.2.12 Percentage of females in lower secondary (ISCED 2) education (% of all students enrolled in the respective level of education)
- 6.2.13 Percentage of repeaters in lower secondary (ISCED 2) education (repeaters per 100 students)
- 6.2.14 Percentage of females among repeaters in lower secondary (ISCED 2) education (in %, girls per 100 repeaters)

6.3 Upper-secondary education (ISCED 3), 2000/2001 - 2010/2011

- 6.3.1 General upper secondary (ISCED 3A) education enrolments (absolute number)
- 6.3.2 General upper secondary (ISCED 3A) gross enrolment ratio (% of population aged 15-18)

6.3.3 Percentage of females in general upper-secondary (ISCED 3A) education (% of all students enrolled in the respective level of education)

6.3.4 Pupil-teacher ratio in lower secondary (ISCED 2) and general upper secondary (ISCED 3A) education (the average number of pupils per teacher)

6.3.5 Upper-secondary education (ISCED 3, all programmes) enrolments (absolute number)

6.3.6 Upper-secondary education (ISCED 3, all programmes) gross enrolment ratio (% of population aged 15-18)

6.3.7 Percentage of females in upper-secondary (ISCED 3, all programmes) education (% of all students enrolled in the respective level of education)

6.4 Post-secondary non-tertiary (ISCED 4) and tertiary (ISCED 5) education, 2000/2001 - 2010/2011

6.4.1 Post-secondary non-tertiary education (ISCED 4) enrolments (absolute number)

6.4.2 Percentage of females in post-secondary non-tertiary (ISCED 4) education (% of all students enrolled in the respective level of education)

6.4.3 Tertiary education (ISCED 5) enrolments (absolute number)

6.4.4 Percentage of females in tertiary (ISCED 5) education (% of all students enrolled in the respective level of education)

7. CHILD PROTECTION

7.1 Children left without parental care, during the reference year, 2000-2011

7.1.1 Total number of children left without parental care, during the year

7.1.2 Rate of children left without parental care (per 100,000 average population aged 0-17), during the year

7.1.3 Children left without parental care by gender: boys, during the year

7.1.4 Children left without parental care by gender: girls, during the year

7.1.5 Children left without parental care by age: 0-2 year olds, during the year

7.1.6 Children left without parental care by age: 3-17 year olds, during the year

7.1.7 Number of children with disabilities left without parental care, during the year

7.1.8 Children left without parental care by cause: orphan children, during the year

7.1.9 Children left without parental care by cause: deprivation of parental rights, during the year

7.1.10 Children left without parental care by cause: abandonment or relinquishment by the parents, during the year

7.1.11 Children left without parental care by cause: parents temporary unable/ not in a position to care for the child, during the year

7.1.12 Children left without parental care by cause: other, during the year

7.1.13 Children left without parental care placed into care, during the year

7.1.14 Children left without parental care by type of placement: in residential care, during the year

7.1.15 Children left without parental care by type of placement: entered educational institution, during the year

7.1.16 Children left without parental care by type of placement: in family based care, during the year

7.1.17 Children left without parental care by type of placement: were adopted, during the year

7.2 Children in residential care, 1989/2000/2005-2011

7.2.1 Total number of children in residential care (in 1,000s), at the end of the year

- 7.2.2 Rate of children in residential care (per 100,000 population aged 0-17), at the end of the year
- 7.2.3 Children in residential care by gender: boys, at the end of the year
- 7.2.4 Children in residential care by gender: girls, at the end of the year
- 7.2.5 Children in residential care by age: 0-2 years olds, at the end of the year
- 7.2.6 Children in residential care by age: 3-6 years olds, at the end of the year
- 7.2.7 Children in residential care by age: 7-17 years olds, at the end of the year
- 7.2.8 Children in residential care by age: 18 years and older, at the end of the year
- 7.2.9 Number of children with disabilities in public residential care (all types of institutions), at the end of the year
- 7.2.10 Number of children without parental care in public residential care, at the end of the year
- 7.2.11 Number of children in infant homes, at the end of the year
- 7.2.12 Number of children aged 0-2 years in infant homes, at the end of the year
- 7.2.13 Rate of children aged 0-2 in infant homes (per 100,000 population aged 0-2), at the end of the year
- 7.2.14 Number of children in general boarding schools (under the full state support), at the end of the year
- 7.2.15 Number of children in non-public residential care, at the end of the year
- 7.2.16 Number of children who left public residential care (including those transferred to another institution), during the year
- 7.2.17 Children who left residential care by reason: were returned to their parents /reintegrated in the family, during the year
- 7.2.18 Children who left residential care by reason: were placed into family type care, during the year
- 7.2.19 Children who left residential care by reason: were adopted, during the year
- 7.2.20 Children who left residential care by reason: started independent life, during the year
- 7.2.21 Children who left residential care by reason: transferred to another institution, during the year
- 7.2.22 Children who left residential care by reason: died, during the year
- 7.2.23 Children who left residential care by reason: other, during the year

7.3 Children in family type (foster parents or guardians) care, 1989/2000/2005-2011

- 7.3.1 Children in care of foster parents or guardians (in 1,000s), at the end of the year
- 7.3.2 Rate of children in care of foster parents or guardians (per 100,000 average population aged 0-17), at the end of the year

Children in foster care

- 7.3.3 Number of registered foster families, at the end of the year
- 7.3.4 Total number of children who entered foster care, during the year
- 7.3.5 Children who entered foster care by gender: boys, during the year
- 7.3.6 Children who entered foster care by gender: girls, during the year
- 7.3.7 Total number of children who left foster care, during the year
- 7.3.8 Children who left foster care by reason: were returned to their biological parents, during the year
- 7.3.9 Children who left foster care by reason: entered child care/educational institutions, during the year
- 7.3.10 Children who left foster care by reason for leaving: started independent life, during the year

- 7.3.11 Children who left foster care by reason: other, during the year
- 7.3.12 Children who left foster care by reason: placed into other foster family, during the year
- 7.3.13 Total number of children cared for by foster parents, at the end of the year
- 7.3.14 Children in foster care by age: 0-2 years old, at the end of the year
- 7.3.15 Children in foster care by age: 3-6 years old, at the end of the year
- 7.3.16 Children in foster care by age: 7-17 years old, at the end of the year
- 7.3.17 Children in foster care by age: 18 years and older, at the end of the year
- 7.3.18 Number of children with disabilities in foster care, at the end of the year

Children in guardian care

- 7.3.19 Total number of children who entered guardian care, during the year
- 7.3.20 Children who entered guardian care by gender: boys, during the year
- 7.3.21 Children who entered guardian care by gender: girls, during the year
- 7.3.22 Children who entered guardian care by age: 0-2 years olds, during the year
- 7.3.23 Children who entered guardian care by age: 3-17 years olds, during the year
- 7.3.24 Total number of children who left guardian care, during the year
- 7.3.25 Children who left guardian care by reason: returned to their biological parents, during the year
- 7.3.26 Children who left guardian care by reason: entered child care/educational institutions, during the year
- 7.3.27 Children who left guardian care by reason: started independent life, during the year
- 7.3.28 Children who left guardian care by reason: other, during the year
- 7.3.29 Total number of children cared for by guardians, at the end of the year

7.4 Adoptions, 1989/2000-2011

- 7.4.1 Total number of adoptions (including intercountry adoptions)
- 7.4.2 Gross adoption rate (per 100,000 average population aged 0-3)
- 7.4.3 Number of adopted children with disabilities
- 7.4.4 Adopted children by age: 0-2 years old
- 7.4.5 Adopted children by age: 3-6 years old
- 7.4.6 Adopted children by age: 7-17 years old
- 7.4.7 Total number of intercountry adoptions
- 7.4.8 Intercountry adoption rate (per 100,000 average population aged 0-3)
- 7.4.9 Intercountry adoptions: number of adopted children with disabilities
- 7.4.10 Total number of children available for adoption, at the end of the year
- 7.4.11 Number of children with disabilities available for adoption, at the end of the year
- 7.4.12 Children available for adoption by age: 0-2 years old, at the end of the year
- 7.4.13 Children available for adoption by age: 3-9 years old, at the end of the year
- 7.4.14 Children available for adoption by age: 10 years and older, at the end of the year

8. JUVENILE JUSTICE AND CRIME INDICATORS

Convention on the Rights of the Child defines a 'child' as a person below the age of 18.

8.1 Committed crimes, 1989-2011

- 8.1.1 Registered total crime rate (per 100,000 average population)
- 8.1.2 Registered number of crimes committed by or with participation of children/juveniles
- 8.1.3 Registered juvenile crime rate (per 100,000 average population aged 14-17)

8.2 Crimes against children, 2000-2011

8.2.1 Total number of registered crimes committed against children, during the year

8.2.2 Registered rate of crimes committed against children (per 100,000 population aged 0-17)

8.2.3 Registered crimes committed against children: against boys

8.2.4 Registered crimes committed against children: against girls

8.2.5 Registered crimes committed against children: victim aged 13 years or younger

8.2.6 Registered crimes committed against children: victim 14-17 years old

8.2.7 Registered crimes committed against children by age of perpetrator: 13 years or younger

8.2.8 Registered crimes committed against children by age of perpetrator: 14-17 years old

8.2.9 Registered crimes committed against children by age of perpetrator: 18 years or older

8.3 Children reported as being in contact with police, 2005-2011

8.3.1 Total number of children reported as being in contact with the police (because of their own behavior), during the year

8.3.2 Children reported as being in contact with the police by gender: boys

8.3.3 Children reported as being in contact with the police by gender: girls

8.3.4 Children reported as being in contact with the police by age: 13 years or younger

8.3.5 Children reported as being in contact with the police by age: 14-17 years old

8.4 Arrest of children, 2000/2005-2011

8.4.1 Total number of arrested children, during the year

8.4.2 Number of arrested boys

8.4.3 Number of arrested girls

8.4.4 Number of arrested children by age: 14-15 years old

8.4.5 Number of arrested children by age: 16-17 years old

8.5 Children charged with an offence (crimes), 2000-2011

8.5.1 Total number of children charged with an offence (crimes), during the year

8.5.2 Children charged with an offence (crimes) by gender: boys

8.5.3 Children charged with an offence (crimes) by gender: girls

8.5.4 Children charged with an offence (crimes) by age: 14-15 years old

8.5.5 Children charged with an offence (crimes) by age: 16-17 years old

8.6 Children in pre-sentence detention, 2000-2011

8.6.1 Total number of children who entered pre-sentence detention, during the year

8.6.2 Children who entered pre-sentence detention by gender: boys

8.6.3 Children who entered pre-sentence detention by gender: girls

8.7 Children involved in criminal proceedings, 2000/2005-2011

8.7.1 Total number of children as victims involved in criminal proceedings

8.7.2 Children as victims involved in criminal proceedings by gender: boys

8.7.3 Children as victims involved in criminal proceedings by gender: girls

8.7.4 Children as victims involved in criminal proceedings by age: 13 years or younger

8.7.5 Children as victims involved in criminal proceedings by age: 14-17 years old

8.7.6 Total number of children as offenders involved in criminal proceedings

8.7.7 Children as offenders involved in criminal proceedings by gender: boys

8.7.8 Children as offenders involved in criminal proceedings by gender: girls

8.7.9 Children as offenders involved in criminal proceedings by age: 13 years old and

younger

8.7.10 Children as offenders involved in criminal proceedings by age: 14-17 years old

8.8 Conviction, 1989/2000/2005-2011

8.8.1 Total number of children convicted for criminal activity (absolute number), during the year

8.8.2 Children sentencing rate (per 100,000 average population aged 14-17)

8.8.3 Children convicted for criminal activity by gender: boys

8.8.4 Children convicted for criminal activity by gender: girls

8.8.5 Convicted children by age: 14-15 years old

8.8.6 Convicted children by age: 16-17 years old

8.8.7 Convicted juveniles by type of crime: violent crimes

8.8.8 Convicted juveniles by type of crime: property crimes

8.8.9 Convicted juveniles by type of crime: other crimes

8.8.10 Convicted juveniles by type of sentencing: committal to a penal institution (youth prison, penal colony...)

8.8.11 Convicted juveniles by type of sentencing: committal to an open institution

8.8.12 Convicted juveniles by type of sentencing: supervision or probation order

8.8.13 Convicted juveniles by type of sentencing: suspended or conditional custodial sentence

8.9 Children in detention, at the end of the year, 2000/2005-2011

8.9.1 Total number of children in a closed facility (by reason of their actual or suspected participation in criminal activity), at the end of the year

8.9.2 Total number of children in pre-trial facilities, at the end of the year

8.9.3 Number of children in pre-trial facilities by gender: boys, at the end of the year

8.9.4 Number of children in pre-trial facilities by gender: girls, at the end of the year

8.9.5 Total number of children in closed facilities following adjudication, at the end of the year

8.9.6 Number of children in closed facilities following adjudication by gender: boys, at the end of the year

8.9.7 Number of children in closed facilities following adjudication by gender: girls, at the end of the year

9. SOCIAL PROTECTION

9.1 Government interventions, 2000/2005-2011

9.1.1 Total social protection expenditure as % of GDP

9.1.2 Expenditure on means-tested social protection benefits as % of total social protection expenditure

9.1.3 Expenditure on cash social benefits as % of total social protection expenditure

9.1.4 Expenditure on social benefits in kind as % of total social protection expenditure

9.1.5 Expenditure on social benefits under Family/Children function as % of total social protection expenditure

9.1.6 Social benefits in kind under family/children function as % of total social benefits in kind

9.1.7 Expenditure on Family allowances as % of total cash expenditure under family/children function

9.1.8 Expenditure on Income compensation during maternity as % of total cash expenditure

under family/children function

9.1.9 Expenditure on Parental leave as % of total cash expenditure under family/children function

9.1.10 Expenditure on Birth grant as % of total cash expenditure under family/children function

9.1.11 Expenditure on other family cash social benefits as % of total cash expenditure under family/children function

9.2 Family support , 2005-2011

Child/family and foster allowances

9.2.1 Total number of children receiving monthly family allowances

9.2.2 Number of children receiving means-tested family allowances

9.2.3 Number of children of single-parent families receiving specific allowances

9.2.4 Number of children receiving other child allowances

9.2.5 Number of children for whom foster/guardian allowance is received

9.2.6 Total number of families receiving monthly family allowances

9.2.7 Number of single-parent families receiving specific allowances

9.2.8 Number of families receiving other child allowances

9.2.9 Total number of families receiving foster/guardian allowance

Birth, maternity and parental leave benefits

9.2.10 Daily average number of women receiving maternity leave in the period

9.2.11 Total number of women receiving birth grant in the year

9.2.12 Daily average number of parents on parental leave

10. CHILD WELL BEING

10.1 Percentage of poor children, 2005-2011

10.1.1 Percentage of poor children within the total population of children: total

10.1.2 Percentage of poor children within the total population of children: boys

10.1.3 Percentage of poor children within the total population of children: girls

10.1.4 Percentage of poor children within the total population of children: among 0-2 years old

10.1.5 Percentage of poor children within the total population of children: among 3-6 years old

10.1.6 Percentage of poor children within the total population of children: among 7-17 years old

10.1.7 Percentage of poor children within the total population of children: in urban areas

10.1.8 Percentage of poor children within the total population of children: in rural areas

10.1.9 Percentage of poor children within the total population of children: head of household male

10.1.10 Percentage of poor children within the total population of children: head of household female

10.1.11 Percentage of poor children within the total population of children: head of household with primary education or less

10.1.12 Percentage of poor children within the total population of children: head of household with secondary education

10.1.13 Percentage of poor children within the total population of children: head of household with tertiary education

- 10.1.14 Percentage of poor children within the total population of children: head of household employed
- 10.1.15 Percentage of poor children within the total population of children: head of household unemployed
- 10.1.16 Percentage of poor children within the total population of children: mother of the child with primary or less education
- 10.1.17 Percentage of poor children within the total population of children: mother of the child with secondary education
- 10.1.18 Percentage of poor children within the total population of children: mother of the child with tertiary education
- 10.1.19 Percentage of poor children within the total population of children: in household with one child
- 10.1.20 Percentage of poor children within the total population of children: in household with two children
- 10.1.21 Percentage of poor children within the total population of children: in household with three or more children
- 10.1.22 Amount of the poverty line in local currency per month per person

10.2 Rates of material deprivation of children, 2005-2011

- 10.2.1 Material deprivation rate among the total population, in %
- 10.2.2 Material deprivation rate among children aged 0-17, in %
- 10.2.3 Material deprivation rate among poor children aged 0-17, in %
- 10.2.4 Material deprivation rate among non-poor children aged 0-17, in %
- 10.2.5 Percent of children living in households that are able to face unexpected expenses
- 10.2.6 Percent of children living in households that can afford one week holiday away from home
- 10.2.7 Percent of children living in households that are able to pay arrears (mortgage, utility bill, etc)
- 10.2.8 Percent of children living in households that can afford a meal with meat every second day
- 10.2.9 Percent of children living in households that are able to keep home adequately warm
- 10.2.10 Percent of children living in households that possess a washing machine
- 10.2.11 Percent of children living in households that possess a colour TV
- 10.2.12 Percent of children living in households that possess a phone
- 10.2.13 Percent of children living in households that possess a personal car

11. ECONOMIC INDICATORS

11.1 Data from national accounts, 1989-2011

- 11.1.1 GDP per capita (constant 2000 US\$)
- 11.1.2 GDP per capita, PPP (current international \$)
- 11.1.3 General government expenditure on health, as % of GDP
- 11.1.4 Total public expenditure on education as % of GDP, for all levels of education

11.2 Employment and unemployment, 1989-2011

- 11.2.1 Employment rate among persons aged 15-59 (employed persons as % of the population of the same age)
- 11.2.2 Registered unemployment rate (average % of labour force)

11.2.3 Registered unemployed among 15-24 year olds (% of total unemployed)

11.2.4 Unemployment rate (average % of labour force), based on LFS

11.2.5 Youth unemployment rate (unemployed 15-24 year olds in % of labour force from of the same age), based on LFS data
